

Kimley»Horn

MBP

ROUTE 360 WIDENING

- Start Construction – April 2023
- End Construction – April 2025
- Cost - \$18.5 M (bid)
- Team:
 - Allan Myers
 - Hanover County
 - Kimley-Horn and Associates
 - MBP
 - T2UE
 - VDOT

Project Scope (from the IFB):

- *widen the roadway*
- *create new turn lanes*
- *convert depressed grass medians to raised grass medians*
- *convert the roadway surface drainage from an open system to a closed system*
- *establishing pedestrian accommodations*
- *modification of existing traffic signals and infrastructure*
- *site work associated with the adjacent Hanover County High School*

The roadway widening and reconstruction involved the design of a 4 lane roadway to a six and eight lane divided roadway and improvements along Lee Davis Road and to the intersection with Route 360.

The proposed roadway baseline was designed generally to align with the existing profile, thus allowing existing drainage patterns to continue.
